Dear Digital Arts Minor students:

I want to update you on the courses that are approved for the Digital Arts Minor in Spring 2023. As always, if you find a course in another school or on another UC campus that focuses on some aspect of digital media and/or digital arts, you are welcome to email me to see if it can count by exception towards the Minor.

I have also listed a few courses that are currently planned for Summer, but please note that these are tentative listings only and may change.

Note: The letter in parentheses for each course shows whether the course counts towards the “A” or “B” requirement for the minor.
